A big thank you to those members who gave their time and expertise. And also to those all the members who turned up on the night and joined in..

We have gained a Flickr group called WPS Workshop Activities which allows us to share some of our efforts from the workshops ... thank you Graham Barber for that.

I have asked for and received several suggestions which I am looking into.

Next year will be a mixture of some of the same, some a bit different and moving on and some new topics.

The dates are already set I would hope to be able to put the first few Workshops on the website before the Programme comes out in August.

As before please do approach me with any suggestions particularly if you know an expert we can persuade to show us how to do it.
