## Centenary Lecture - Tue 16 Jan 2024

### Leigh Preston FRPS EFIAP MPAGB

Leigh's photography is mainly thematic, using dramatic lighting in wilderness situations, or monochrome in the urban landscape.

The majority of his output has concentrated on the Northern Mill Towns, depicting a changing industrial landscape, and portfolio work in far-flung locations.

He has travelled widely, with an emphasis on the USA to make images on the empty Prairies, and many other destinations, adding a more reportage style of portraiture to his portfolio.

Lately he has been working on the street, looking for characters and humour or aspects of absurdity.
